Style Of Fabulous finesse

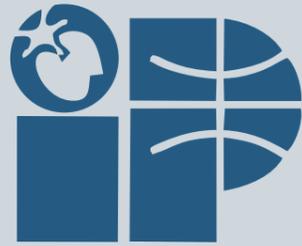

The shades that comprise the Elevation series, thanks to their sobriety and naturalness, perfectly integrate with the contemporary style of home furnishing. The minute details that characterized the Elevation collection are seen best in the three dimensional structures decor; in the Wall 3D.

for example, built from small bush hammered, honed and sand-blasted pieces, or in the Rub decor, which with its worked surface, tells the story of the material quality of sedimentary stone.

tiles with graceful touch

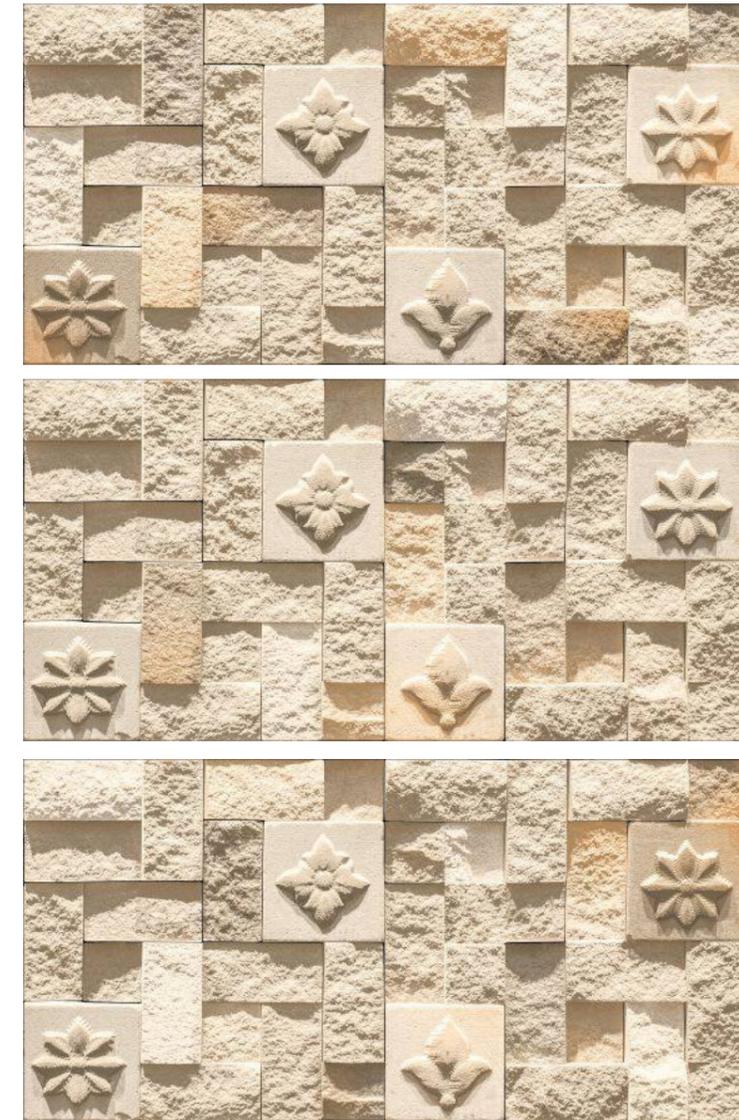

When it comes key element in decorating the living space, giving the wall tile the focus of attention indoors. The main theme of our decorative tile is, without a doubt, the hydraulic wall tile. The antique style is fashionable again. The constant search of being singular encourages the interest in the past. Nowadays, people are seduced by worn out shapes and, vivid colours like the ones we can find in the clay. A contemporary vision of an antique style.
